

NEWS FLASH: 14.4/28.8 MODEMS NOW OBSOLETE

NEW TURBO232 NOW SUPPORTS UP TO 230KBPS AND NEW 33.6 MODEMS

The quest for faster Internet access has made 33.6K modems the new standard, with 57.6K modems not far behind. SwiftLink and other first generation interfaces simply can't keep up—putting your Commodore in the slow lane on the Information Superhighway! The all-new Turbo232 has been Creative Micro Designed to keep pace with the explosion in telecommunications technology!

- **SwiftLink Compatible** Turbo232 has been designed to work with programs written for SwiftLink
- **High-Speed Support** Turbo232 keeps up with today's fastest modems, offering speeds up to 230Kbps
- **Easy-to-use!** Turbo232 simply plugs into the expansion port and connects to almost any external Hayes-compatible RS-232 modem
- **Easy Configuration** Turbo232 has easy-to-configure jumpers for users with special requirements
- **Null Transfers** Ideal for use with Novaterm 9.6 as a null modem interface for fast data transfer between computers (i.e. PC, Mac, Amiga)

Modems: Hayes Compatible external RS-232
 Baud Rates: 150 to 230.4Kbps
 Jumpers: I/O Page (\$DF/\$DE), Interrupts: NMI/IRQ, DSR Enable/Disable
 Connector: DB-9 Male (AT-style)

Turbo232 Cartridge \$39.95
 Modem Cable (DB9-25) \$9.95
 Turbo232 w/ Boca 33.6 fax/modem \$199.00

Shipping not included, refer to main CMD Ad for shipping prices and policies. Terminal Software sold separately.

Join the Telecommunications Revolution... get on the Information Super Highway TODAY!

- Easy-to-use — novice user configuration
- Now supports UUencode and UUdecode and converts files on disk or in a buffer. Also ASCII ↔ PETSCII and PETSCII to Unix.
- Protocol support: Zmodem up/download, resume (crash recovery), streaming to buffer; Ymodem batch; Ymodem-g; Xmodem-1k; Xmodem-1k-g(to buffer); Xmodem-CRC; Punter; Kermit; WXmodem.
- Supports High Speed Interfaces like Turbo232 for speeds up to 230Kbps.
- Supports ANSI color/graphics, VT102, and VT52 in 80 col. Plus Commodore color graphics and ANSI color. All emulation modules now load from one window.
- Enhanced full featured Text editor can now load/save files from the buffer and has an integrated script compiler.
- Script language for automatic operations
- Simple BBS mode - dial-in downloading
- Supports real-time clocks in CMD devices
- All new user's manual

Now Just \$29.95 (Specify 5.25" or 3.5" disk)

Dome Simplified Bookkeeping System

In the world of bookkeeping, Dome has long been recognized as an industry leader. This software package tracks expenses, income, payroll, and generates up-to-the-minute reports. Features check register, Sales/Cash Receipts Register, Payroll Register, Vendor Analysis, Income Statement (P&L), Income Analysis by product or service, and much more!

only \$49.00

MECC Educational Series

SPELLING BEE (Ages 8-13) - Great for strengthening your child's spelling and vocabulary skills, this set of drills can be timed or untimed. When timed a small bee moves toward a flower located at the left bottom corner of the screen.

ADVENTURES WITH FRACTIONS (Ages 10-14) - Colorful graphics and sound make for fun as this lively game has children ordering fractions as they try to collect coins to ransom the young prince while encountering helpful and harmful monsters. The common denominator and the cross-products method are both presented.

EXPEDITIONS (Ages 8-15) - This unique collection of three simulations challenges your child's decision making skills, their ability to navigate as well as their knowledge of American history. For example: Oregon simulates a trip from Independence, MO to Oregon City, OR in 1847, where their role as a frontier American tests the decisions they've been forced to make on their journey.

PRE-READING (Ages 3-7) - a collection of six programs help children practice essential reading-readiness skills. Among the skills covered are identification of upper/lower case letters, alphabetical order, letter/sound correspondence, discrimination of shapes and colors, memorization and problem solving.

THE GLASS COMPUTER (Ages 12-Adult) - Demonstrates the inner workings of a computer as it interprets BASIC statements, such as, LET, PRINT, INPUT, and END. Users gain a concrete understanding of the inner workings of a computer which is helpful as they go on to write their own software programs.

THE MARKET PLACE (Ages 8-14) - Ideal for the budding entrepreneur, The Market Place graphically illustrates elementary concepts of economics. It allows the child to make and test decisions as they control simulated businesses and try to make a profit.

only \$15.00 each

Jane 128

Produced by Commodore, this fully integrated productivity package for the Commodore 128 provides a word processor, spreadsheet and filing system that are very easy to use. Jane eliminates the need to become familiar with complicated commands, and lets you quickly produce letters, track your checking account and other finances, maintain family health records, keep track of important addresses, and more!

only \$19.00

Where in the (World, Time, Europe) is Carmen SanDiego?

This game series is one of the most popular computer mystery games of all time. Ideal for young and old, these games will challenge your knowledge of history, geography and other facts relating to the regions you will visit. Plus you'll find out just how good your problem solving skills are. **World** - Learn about over 30 cities throughout the world as you chase Carmen and her gang! Includes: World Almanac and Book of facts. **Europe** - You'll travel 34 nations within Europe, access your on-line database of facts and use the RandMcNally Concise Atlas of Europe as you hunt down Carmen. **Time** - Chase Carmen through the ages as you investigate 1500 years of historical events, famous people and important inventions. Includes New American Desk Encyclopedia.

only \$39.00 each

Print Shop Companion

An absolute must-have for all Print Shop owners, this popular add-on provides dozens of additional typefaces, borders and graphics. It also includes a custom calendar maker with monthly and weekly formats, a tile maker, and a "creature maker."

only \$15.00

Felony!

Something is rotten in the town of Huxley in this CBS Software mystery. Crime is rampant; theft, robbery, assault, kidnapping and murder is a regular occurrence! With the aid of your trusty Crime Computer, it's up to you investigate shady characters, false leads, clever deceptions and red herrings while searching for clues you'll need to gather enough evidence to convict the guilty parties in these crimes. Work alone, or with up to 3 partners in this fun mystery-solving epic!

only \$10.00

Bank Street Writer

This highly acclaimed word processor by Broderbund is simple enough to be used by children, yet meets most adult writing needs. Bank Street Writer lets you concentrate on your writing, not on trying to remember special codes, keys or symbols. Produce letters, reports, and more. Includes on-disk tutorial.

only \$12.00 ea.

Commodore World is the publication that will keep you informed in these times when up-to-date information on Commodore computing is so hard to find. Published by Creative Micro Designs, the industry leader in development of C-64 and C-128 related products for over eight years, Commodore World will supply you with information on what's new, what's still available, and above all else—where to get it. If you felt you had nowhere to turn to for Commodore support, turn to the pages of Commodore World for a wealth of resources ready to help you get the most from your computer!

You'll find Commodore World feature articles informative and easy to read; what's more, they're written by leading authorities and experts, many of whom have written for other Commodore-related publications in the past. And Commodore World has something for everyone, whether you're a novice or an experienced programmer.

And while our feature articles help to cover different subjects in each issue, regular columns and departments provide on-going discussion of various topics, news and events. You'll find columns that cover BASIC, ML and GEOS programming; hardware & software tips and projects; GEOS; peripherals, foreign market news, reviews, telecommunications and more.

So, if you really want to get the most from your Commodore, there's no better way to get it than Commodore World!

Columns
Just For Starters - An introduction to the C64/128 by Jason Compton
Foreign Exchange - An inside look at the market in Europe by Joseph Gaudl
Graphic Interpretation - GEOS, GEOS and more GEOS by Paul Sullivan
geoProgrammist - GEOS programming techniques by Maurice Randall
BASIC Instincts - BASIC tutorials and type-in programs by David Pankhurst
Jim Butterfield's ML Column - Probably the best known name in our industry, Jim covers every aspect of programming in ML
Peripheral Vision - Technical insights to C-64/128 hardware peripherals
Carrier Detect - Exploring every facet of Telecommunications by Gaelyne Gasson
Over The Edge - Editorial covering various computer related topics and news

CMD SERVICE CENTER

1-800-638-3263

Why choose CMD's Service Center for repairs?

CMD is here for you. We are 100% committed to the Commodore market and we prove that every day! We bring over ten years experience to each repair and stand behind our work. You can count on CMD to not only repair your equipment, but also to make an honest assessment of the problem and provide you with the most cost effective solutions. There are times when it is less expensive to replace a piece of equipment than it is to repair it, and in those cases we will do just that. With our large inventory of reconditioned computers and drives, you can rest assured that you will be up and running in a short period of time. Reliability, honesty, quality service and top notch technicians are just a few reasons why CMD is the right choice for repairs!

COMPUTER SERVICES

Computer Repairs

CMD offers full service on all C-64, C-64C, C-128, C-128D and SX-64 computers. Our minimum repair charge is \$35.00 (\$50.00 for SX-64) which covers the first hour of labor. Additional charges will apply for parts and/or labor beyond one hour. Average repair charge for C-64/64C computers have been approximately \$50.00. Average repair charge for C-128/128-D computers has been approximately \$70.00. Return shipping charges for any computer repair shall be \$7.00 to addresses in the continental United States; additional charges will apply to other addresses.

C-128 64K Video RAM Upgrade

CMD can upgrade your C-128 to 64K Video RAM without any messy piggyback boards or soldering. We will remove the old video RAM chips and replace them with higher capacity video RAM chips. Direct installation on the motherboard is the most reliable way to upgrade video RAM! The old piggyback boards historically create heat related problems and routinely pop out of the socket. Don't wait any longer to upgrade your C-128! Start using those new high-powered programs today!

C-128 64K VDC Upgrade **\$50.00**

C-64/64C/C-128/128-D Special Services

JiffyDOS Installation (All computers / Includes Socket)	\$35.00	C64/64C Reset Switch Installation	\$45.00

BREATHING NEW LIFE INTO YOUR COMPUTER

THE SUPERCPU INCREASES YOUR COMPUTERS
PROCESSING SPEED BY MORE THAN 20 TIMES! SIMPLY
PLUG IT IN AND WATCH OLD PROGRAMS COME TO LIFE
AND BEGIN DREAMING ABOUT THE POWERFUL NEW GENERATION
OF SUPERCPU COMPATIBLE SOFTWARE FOR 1997!

What will the SuperCPU do for me?

Programs will suddenly spring to life — screens and menus pop up instantly, scrolling becomes fluid, and graphics fly. A C-64 equipped with the SuperCPU is like having a Volkswagen with a V-8. There's one small exception - the SuperCPU rides much smoother. Even though the SuperCPU gives your computer a radical increase in horsepower (up to 22 times faster), its operating system makes that power usable by maintaining compatibility with most existing software and making its operation transparent to the user.

Looking to the future, the powerful 65C816S processor gives programmers infinitely more resources to create new, more elaborate and sophisticated software. With its 16 bit registers, up to 16 MB of system memory and full 6502/6510/8502 emulation, the SuperCPU makes it easy to enhance existing software and makes the possibility of Internet browsers, animation and high-tech applications a reality! The SuperCPU's already rewriting the history of Commodore computing.

So join the Commodore revolution and order a powerful new SuperCPU TODAY!

SUPERCPU/64 \$199.00*

SUPERCPU/128 \$299.00**

* Plus Shipping: US \$10 / AK, HI, PR \$20; Canada \$20
** \$50 Deposits being accepted now for Summer '97 delivery

Ultra Fast • Compatible • Easy-to-use

- High-Speed microprocessor, 128K Cache RAM, advanced hardware logic, and up to 512K ROM enable you to run all types of existing commercial software at speeds up to 22 times faster.
- BASIC programs, including most Bulletin Board Systems, seem to run as fast as machine language making BASIC compilers a thing of the past!
- Commercial machine language programs (databases, spreadsheets, word processors, telecommunications, graphics, etc.) run so fast that you'll think your running them on another computer!
- GEOS comes alive — No typing or scrolling delays, graphic operations happen instantly, faster printing and disk access! Includes enhanced GEOS setup utility!
- Easy-to-use: Plug it into your cartridge port and start working — no messy cables or special adjustments.
- Built-in JiffyDOS Kernal boosts disk access speed up to 15x faster with JiffyDOS equipped drives.
- Pass-thru port provides compatibility with RAMLink, SwiftLink, GeoRAM, 17xx REU's and other cartridges.
- Enable/Disable, JiffyDOS on/off, 1 Mhz/Turbo, and Reset switches make configuring the SuperCPU a snap. The internal Rocket Socket makes future expansion simple.

CMD Storage Devices

The fastest, most advanced storage devices available for the C-64 and C-128 computer

RAMLink™

FASTEST

Power-Backed Expandable RAM-disk Drive

- Fastest possible method of storage with capacities up to 16 MB. Power and battery back-up retains data even when computer is turned off!
- Equipped with CMD DOS for flexibility and optimum compatibility, RAMLink can emulate multiple 1541, 1571, & 1581 disks or use CMD Native partitions.
- Ideal for use with GEOS as RAM Disk, RAM Expansion or both.
- Easily connects to cartridge/expansion port yet behaves and operates like a super-fast disk drive with built-in JiffyDOS and SWAP features.
- Built-in Pass-thru port for other cartridges, RAM-Port for REU's & GEORAM and Parallel port for fast access to CMD hard drives.

RL w/ 1 MB \$189⁰⁰ • RL w/ 4 MB \$229⁰⁰
 RL w/ 8 MB \$274⁰⁰ • RL w/ 12 MB \$309⁰⁰ • RL w/ 16 MB \$349⁰⁰
 OPTIONAL RAMLINK BATTERY BACK-UP \$24.95 / OPTIONAL REAL-TIME-CLOCK ADD \$10⁰⁰

Full Featured High Density 3.5" Disk Drive

- The FD-2000 uses modern High Density diskettes (1.6 MB) just like Pentiums or the Power PCs. The FD-2000 is the highest capacity floppy drive available for the C-64/128 and is more compatible with existing software than the 1581!
- Equipped with CMD DOS for compatibility and speed, the FD-2000 also reads and writes 1581 disks, and can emulate multiple 1541 or 1571 disks.
- Easily connects to the serial bus just like any other drive and features JiffyDOS for greatly enhanced speed on JiffyDOS equipped computers.
- Features: SWAP 8/9 switch, Device # switches (8-15), GEOS compatibility software, FD Utilities disk and very small size (7.625"L x 4.75" W x 2.375"H).

FD Series™

HD Series™

Fast SCSI Hard Disk Drives for the C-64/128

HD Series Hard Drives are available in capacities up to 2 GB, are fully partitionable, and can emulate 1541, 1571, & 1581 disks as well as provide Native partitions which can be up to 16 MB in size and utilize MS-DOS-style subdirectories. HD's connect easily to the serial bus or to RAMLink via a high-speed parallel cable. They are many times faster than any other type of physical disk drive. Includes built-in JiffyDOS, SWAP feature and Real-Time Clock. HD's offer superior compatibility with most commercial software including BBS, Productivity and GEOS. And with new pricing, HD Series drives offer the lowest cost per megabyte of any C64/128 storage device. Imagine... No more thumbing through endless piles of disks looking for the right one — use your hard drive like a huge file cabinet to organize and store hundreds or thousands of disks. Each 40 MB holds up to 240 -1541 disks. Get yours Today!

40 MB Only \$269⁰⁰

160 MB \$319⁰⁰ • 500 MB Call
 1.2 GB \$559⁰⁰ • 2.0 GB \$559⁰⁰

FASTER

* Only valid at time of RAMLink purchase. RTC Upgrade Kit \$19.00 at a later date.

Offers valid only in U.S. and Canada through April 30, 1997. Prices do not include shipping and handling. Pricing and spec's subject to change without notice. See our main ad for shipping prices and policies. May not be combined with any other offers.
