

WARNING NOTICE !!!

Do not run geoFAX from this original disk !!!

Either make a backup copy of the entire disk using a whole disk copier such as geoSHELL's 'dcopy' command or CMD's 'MCOPY' or use the Desktop or geoSHELL's 'fcopy' command to filecopy geoFAX to another disk first. Then you can use geoFAX. Please read the included documentation that is supplied on the disk after copying it to another disk. It is in GeoWrite format.

If you run geoFAX from this disk, you will ruin part of the program.

You were warned!
